## Scissoring.

A shipright took it into his fancy, perhaps by way of amusement, to thrash his wife with a rope's end—in exhibition of "man's rights." The next day his wife took a pie to the place where he worked, instead of finding a beef-steak or mutton-chop, he found a portion of the rope with which he had ill-used her. Sav'd him right if she had made him gorge it, and given him a sound thrashing for desert!

Said a Dutchman to a Yankee, as they were walking on the banks of the Hudson: "How did that man we read of in the Bible make iron swim?" "It was thro' faith," answered his comrade, "and if you but have faith too, you may make your axe swim." After repeated assurances, the Dutchman said: "Well, I do have voice," and deliberately casting it into the river, saw it go to the bottom; when, turning to his laughing companion, he exclaimed, "Dare now, I knew it would sink." "That's the very reason," said the Yankee, "you did not believe." "Now, I see shut so plain as day," said the Dutchman, "but it vos you tam Yankee trick."

An exchange asks very innocently if it is any harm for young ladies to sit in the laps of ages.

Our opinion is that it all depends on the kind of ages selected. Those from eighteen to twenty-five, we think, are very hazardous.

A country fellow came to the city to see his intended wife, and for a long time could think of nothing to say. At last a great snow falling, he took occasion to tell her that his father's sheep would be all undone. "Well," said she, taking him by the hand, "I'll keep one of them."

The lady who could read the following, and not "pity the sorrows of a poor young man," deserves to live and die an old maid:

I wish I was a turkadee  
a settin on your knee  
I'd kiss your smiling  
lips to all eternity.

A man in Kentucky was so enormously big, that when he died it took two clergymen and a boy to preach his sermon.

Before you commit suicide swallow an emetic. What you take for despair may be only a couple of pig's feet. Try it on.

"Why did Joseph's brethren cast him into the pit?" asked a Sabbath-school teacher to his class. "Because," replied one, slyly, "they thought it a good opening for the young man."

De Quincy somewhere tells an anecdote of a man, who, on being threatened with an assault by eighteen tailors, cried "Come on, both of you!"

A Persian poet says: "Night comes on, when the ink bottle of heaven is overturned." Another calls the evening dew "the perspiration of the moon."

"Old age is coming upon me rapidly," as the urchin said, when he was stealing apples from an old man's garden, and saw the owner coming furiously with a cowhide in hand.

"Well, Jane, this is a queer world!" said a cara spona to his wife, at breakfast, the other morning. "A sect of women, philosophers have just sprung up!" "Indeed," said Jane, "and what do they hold?" "The strangest thing in nature," said he; "their tongues!"

"Excuse me, madam, but I would like to ask why you look at me so very savagely?"

"Oh! beg your pardon, sir! I took you for my husband!"

He who goes to bed in anger, has the devil for his bed-fellow. A wag desires us to say that he knows a married man, who, though he goes to bed meek and gentle as a lamb, is in the same predicament.

The Burnet House has over a thousand guests, and Mr. Coleman says he can accommodate three thousand more. The hall of the hotel is the scene of a constant stir and excitement. It would be extravagant to set down the arrivals since Sunday at five thousand.—*Cin. Enquirer.*

An unfortunate youth, who occasionally pays his addresses to a lady in Flag alley, cries out in this manner:

"When weary I are,  
I smoke my cigar,  
And when the smoke rises  
Up into my eyes,  
I think of my true love,  
And oh, how I sigh!"

**THE COPPER PRODUCT.**—The annual product of pure copper in this country is far greater than the quantity mentioned in one of our scientific selections. It was at Lake Superior, in 1854, 2,000 tons; in 1855 about 3,000 tons; and the result of 1856 bids fair to be 4,000 tons.

**PETTICOATS VS. WHISKY.**—While the passenger train on the Ohio and Mississippi Railroad was passing through Vienna, Scott county, Ind., yesterday, a party of sixteen strong-minded females, armed with hatchets, were in the act of demolishing a grocery, deemed offensive to the "fair sex." The occupant pointed a musket at the woman in self-defense, when they pitched in and demolished the ranch and its contents.—*Cin. Com.*

A Frenchman once asked what difference there was between M. de Rothschild and Herod? The difference was that Herod was king of the Jews, and Rothschild was Jew of the Lings.

## KENTUCKY CORN & COB MILL.

It is well known that there is great economy in crushing or grinding the kernels of all grain before feeding it to stock, and that there is much nutriment in the cob when properly broken or ground. And the only reason that mills arranged to produce these desired results have not been more generally introduced among planters and farmers, has been their complex arrangement and high cost.

In the Kentucky Corn and Cob Mill, of which the above is an accurate engraving, we claim to have produced a machine of once efficient, substantial and cheap, while its arrangement is so simple that the most ordinary hand can adjust and operate it. This machine, unlike any other, is regulated by means of a single set screw, which is easily moved by hand, and is applied directly under the center of the mill.

Any one using these mills will find a clear saving of ONE QUARTER of their corn over the old plan of feeding.

We warrant these Mills to give entire satisfaction. Purchasers may use them for thirty days, and if not satisfied, can return them and get their money.

They will grind Corn and Cob as fine as desired, at the following rate per hour, with one horse:

- No. 1, 1 to 1 1/2 bush per hour. Weight 350 lbs. Price, \$25.00.
- No. 2, 2 to 2 1/2 bush per hour. Weight 190 lbs. Price \$30.00.

The above prices include the complete Mill ready to hitch to without any further expense, and could be set in operation in five minutes time.

## Pennsylvania Four Horse Power and Thresher, with Tumbling Shaft Complete.

We are now engaged in making 500 of these Threshers for the harvest of 1856. And from our experience and success last season, together with the additional precaution of having secured at an early day thoroughly seasoned lumber, and other materials of unexceptionable quality, we are satisfied that we will be able to turn out Machines to which we can and will give the most unqualified endorsement.

The advantages claimed by us for the Pennsylvania Thresher over any other in general use, are the following:

- 1st. Its great strength and simplicity.
- 2nd. Its ability to do more work each day than can be performed by any other known Machine driven by four horses.
- 3rd. It is portable, and is easily hauled by two horses on a wagon; and can be loaded or unloaded, and put in operation in thirty minutes.
- 4th. We have also succeeded in removing what has heretofore been so objectionable in other Machines, to wit: the necessity for great speed on the part of the horses—our Machine being so geared as to accomplish greater motion with less speed in driving.

We have manufactured and sold over two hundred of these machines during the past season, and in no instance has one been returned, under the following

## WARRANTEE.

We warrant every Machine to be made well, and of good material, in every respect, and to do its work to the satisfaction of the purchaser, or refund the money.

- Complete Four-Horse Power alone, cash, 80.00

## PROSPECTUS OF THE POST.

Believing as we do, that the perpetuity, welfare, and prosperity of our beloved country have been jeopardized by the fanaticism of the North; we, the undersigned, have come to the conclusion that our voice as a public journalist should be put forward in defense of those things hitherto held sacred by every one who breathed the free air of America; be they Catholic or Protestant; native born or foreign-born.

The Constitution of the United States guarantees to every man, who, either is accidentally born within her limits, or swears eternally allegiance to her laws; protection, suffrage, and the right, (particularly,) to worship God according to the dictates of his own conscience. Therefore, conceiving as we do, that the DEMOCRATIC PARTY, is the only one that advocates "Equal Rights to all, and exclusive privileges to none," we shall, in public, as we have heretofore in private, advocate and support the tenets of the Democratic Party. We have had it too often thrown in our teeth, when we wished to show up folly in its true color, that we were "sectarian," and consequently had no right to say anything in regard to any political subject, either privately or publicly. We have got tired of this, and although the bustle and commotion of politics suits not our inclination; yet, under the exigencies of the case, we think it our imperative duty to publish a strictly

## DEMOCRATIC PAPER.

Those who take our paper heretofore, shall never have the pleasure of saying to us that we have transgressed the bounds of "neutrality," for we intend to have the privilege of saying what we please, and bearing as we do, the burden of TRUTH, we fear not the arrows of error. In thus throwing broadcast, the glorious old banner of Democracy, which we have been forced to do by inadvertent circumstances, which we will explain hereafter, we have only acted in self-defense; but of that, more anon.

Heretofore, our pen, humble and feeble though it be, will be dedicated to the Democratic principles, whilst at the same time, we will not forget to place before our readers each week, matter for their amusement, edification and instruction.

**TERMS.**—THE POST will be furnished to subscribers at \$2.00 per year, if paid in advance. Clubs of ten or more, however, will be taken at \$1.50 each, where the money accompanies the list.

LEONARD SCOTT & CO.,

No. 51 Gold street, New York.

## "FARMER'S GUIDE TO SCIENTIFIC AND PRACTICAL AGRICULTURE."

By HENRY STEPHENS, F. R. S., of Edinburgh, author of the "Book of the Farm," &c., &c.; assisted by JOHN P. NOYCE, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c., &c.

This highly valuable work will comprise two large royal octavo volumes, containing over 1400 pages, with 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of plowing, planting, haying, harvesting, &c., &c., the various domestic animals in their highest perfection; in short the pictorial feature of the book is unique, and will render it of incalculable value to the student of Agriculture.

This work is being published in Semi-monthly Numbers, of 64 pages each, exclusive of the Steel engravings, and is sold at 25 cents each, or \$5 for the entire work in numbers, of which there will be at least twenty-two.

The British Periodicals Re-published are as follows, viz:

The London Quarterly Review (Conservative).

The Edinburgh Review (Whig).

The North British Review (Free-Church).

The Westminster Review (Liberal), and Blackwood's Edinburgh Magazine (Tory).

Although these works are distinguished by the polished shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. Blackwood, still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Pulver and other literary notables, written for that magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Cantons" and "My New Novel," (both by Bulwer), "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood.

SCOTT & CO., so that subscribers to the reprint of that Magazine may always rely on having the EARLIEST reading of these fascinating tales.

DR. J. S. HOUGHTON'S

## PEPSIN,

THE TRUE

DIGESTIVE FLUID,

OR

## GASTRIC JUICE!

Prepared from Rennet, or the Fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. HOUGHTON, M.D., Philadelphia, Pa.

"DIGEST." Such is the true meaning of the word PEPsin. It is the chief element, or great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming a true Digestive Fluid, precise like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it.

This is Nature's own Remedy for an indolent Stomach. No art of man can equal its curative powers. It contains: Alcohol, Bitters, Acids, or Nauseous Drugs. It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of Drugged Imitations. Pepsin is not a Drug.

Half a teaspoonful of Pepsin infused in water, will digest or dissolve five pounds of Roast Beef in about two hours, out of the stomach.

## Scientific Evidence.

The Scientific Evidence upon which this Remedy is based is in the highest degree curious and remarkable.

Call on the Agent and get a Descriptive Circular, gratis, giving a large amount of scientific evidence, from Liebig's Annual Chemistry; Dr. Combe's Physiology of Digestion; Dr. Pereira on Food and Diet; Dr. John W. Draper of New York University; Prof. Darglison's Physiology; Dr. F. Sullivan, of Yale College; Dr. Carpenter's Physiology, &c., together with reports of cures from all parts of the United States.

## Pepsin in Fluid and Powder.

DR. HOUGHTON'S PEPsin is prepared in powder and in Fluid Form—and in prescription vials for the use of Physicians. The powder will be sent by mail free of postage, for one dollar sent to Dr. Houghton, Philadelphia.

## HARPER'S

## NEW MONTHLY MAGAZINE.

This Magazine has already reached a regular monthly issue of more than 100,000 copies; and is still steadily and rapidly increasing. The Publishers have endeavored, by a well-directed use of the abundant resources at their command, to render it the most attractive and most useful Magazine for popular reading in the world; and the extent to which their efforts have been successful is indicated by the fact, that it has attained a greater circulation than any similar periodical ever issued.

Special efforts will be made to render it still more interesting and valuable during the present year. In addition to the usual ample and choice selections of Foreign and Domestic Literature, an increased amount of Original Matter, by the ablest American Writers, will be hereafter furnished. The number of Pictorial embellishments will be increased; still greater variety will be given to its literary contents; its Editorial and Miscellaneous departments will be still farther enlarged and strengthened; and no labor or expense will be spared to render it in every way, and in all respects, still more worthy of the extraordinary favor with which it has been received.

Harper's New Monthly Magazine owes its success to the fact, that it presents more reading matter, of a better quality, in a more elegant style, and at a cheaper rate, than any other publication.

Subscribers in any part of the United States may now receive the Magazine by mail for three cents a number, or thirty-six cents a year postage, either of the Publishers, Booksellers, or Periodical Agents.

Each number of the Magazine will contain 114 octavo pages, in double columns (one year thus comprising nearly two thousand pages of the choicest Miscellaneous Literature of the day. Every Number will contain numerous Pictorial Illustrations, accurate Plates of the Fashions, a copious Chronicle of Current Events, and impartial Notices of the important Books of the month. The volumes commence with the numbers for June and December; but Subscriptions may commence with any number.
